&&&&&&&&

There are so many so-called hair growers on the market, a large number of which are nothing more than perfumed grease, it is no wonder people get discouraged and lose faith in all hair tonics. In deciding what to use on your scalp be sure and get a remedy of proven merit. See-by's Quinade is a highly medicated pomade that has stood the test of time. It is a real scalp food; it stimulates and nourishes the roots of the hair, causing a natural growth of long hair.

Quinade is the invention of an ex pert chemist and is made under the supervision of an experienced registered pharmacist. It makes the hair soft and smooth and easy to put up in the style desired.

of Quinade it is neccessry to shampoo the scalp about every two weeks with Seeby's Quinasoap. Quinasoap is made entirely out of pure vegetable oils, principally cocoanut oil, and is a thorough cleanser. Quinasoap lathers very freely. It leaves the hair soft and fluffy and imparts a refreshing feeling to the scalp unequalled by any other shampoo.

Do not accept any substitute, but insist on getting Seeby's Quinade and Seeby's Quinasoap, asking for them by the full name. Price is 25 cents each. If your druggist or dealer does not stock these two articles ask him to obtain them for you from his wholesaler or send us the price and we will mail them to you.
